

Governor Newsom,

We, the people of California,  
elected you because we thought you  
would make good decisions as  
governor. You were not elected  
to parent the citizens of California.

I feel bad about insulting you,  
but, in my opinion, shutting down  
California is a poor choice. For lots  
of people, you are stealing California's  
kids' childhoods, and you are stealing  
California's adults' lives and work.  
This is a preposterously long time  
to have been shut down. This is  
a free country. We have rights  
and choices, and you don't need  
to control them. Most of the people  
I know want their freedom back.  
I've invited them to write their names  
on a paper included with this letter.

Sincerely,

♡ ☺ ⊕ ☆
